

EZDK Sustainability Objectives

- Lowering EZDK's Greenhouse Gas (GHG) emission intensity.
- Lowering EZDK's carbon footprint.
- Increase EZDK's material efficiency.
- Using treated wastewater in landscape irrigation and slag cooling.
- Increase EZDK's energy efficiency.
- Sustaining the fatality incidence rate at Zero.
- Sustaining the occupational illness incidence rate at Zero.
- Ensuring EZDK reliability through the improvement of iron and steel making plants maintenance systems.
